# Import Export Wishlist Products By MageBees

---

## HOW TO INSTALL?

### Pre-installation:

- ⇒ Login to **admin** → **System** → **Cache Management** and **disable** all types of cache.
- ⇒ Go to **System** → **Tools** → **Compilation** and “**Compilation Status**” must be “**Disabled**”.

### Using Magento Connect:

#### Step-1

- ⇒ Go to **admin** → **System** → **Magento Connect** → **Magento Connect Manager**.
- ⇒ You will get following screen. Enter your **Username** and **Password** here then, click on the login.

**Magentoconnect** MANAGER

**Log In**

Please re-enter your Magento Administration Credentials.  
Only administrators with full permissions will be able to log in.

Username:

Password:

**Log In**

Login here using your Admin Panel Username and Password.

# Import Export Wishlist Products By MageBees

## Step-2

- ⇒ You will get following screen. Select the package using **Browse** button and click on the **Upload** Button.

The screenshot shows the Magento Connect Manager interface. At the top, there's a header with 'Magentoconnect MANAGER' and navigation links for 'Return to Admin' and 'Log Out'. Below the header, there are tabs for 'Extensions' and 'Settings'. The main content area is divided into sections: 'Settings' (with a checkbox for 'Put store on the maintenance mode while installing/upgrading'), 'Install New Extensions' (with instructions to search via 'Magento Connect' and a text input field for an extension key), and 'Direct package file upload' (with instructions to download or build a package file and an 'Upload package file:' section containing a 'Browse...' button and an 'Upload' button). A dashed arrow points from the text 'Select Extension Package & Click on Upload button' to the 'Browse...' button. At the bottom, there's a 'Manage Existing Extensions' section with a 'Check for Upgrades' button and a 'Channel: Magento Community Edition' section with a 'Commit Changes' button. A checkbox for 'Clear all sessions after successful install or upgrade:' is also present.

After successfully extension installation, it will show below screen.

The screenshot shows a terminal window with the following output:

```
Auto-scroll console contents
Package installed:
community Namespace_Modulename X.X.X
Cleaning cache
.....
Cache cleaned successfully
```

Below the terminal output, there is a green message box that says: "Procedure completed. Please check the output frame for useful information and refresh the page to see changes." Below this message box is a 'Refresh' button.

---

## **Step-3**

⇒ Log out from admin panel and re-login.

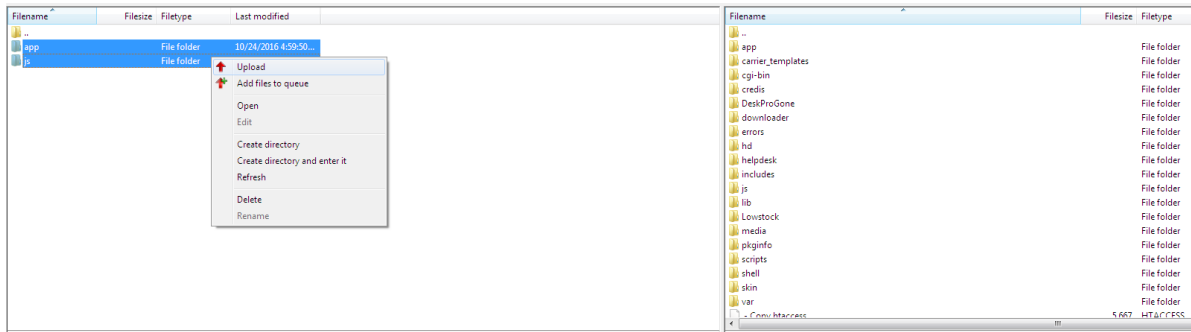

## **Manually Installation:**

### **Step-1**

⇒ Unpack the contents of the “**import\_export\_wishlistproducts-1.0.0 .tgz**” folder that you have downloaded. (E.g. with the Freeware program *WinRAR*) in a directory of your choice.

### **Step-2**

⇒ Please upload “**app**” and “**js**” folder to your <SITE ROOT>

**⇒ After installing extension please Logout from admin account and Re-login.**

***Note: When you unpack the contents of the ‘extension’ folder from package file downloaded, you will get package.xml file at the root folder. There is no need to upload that file.***
