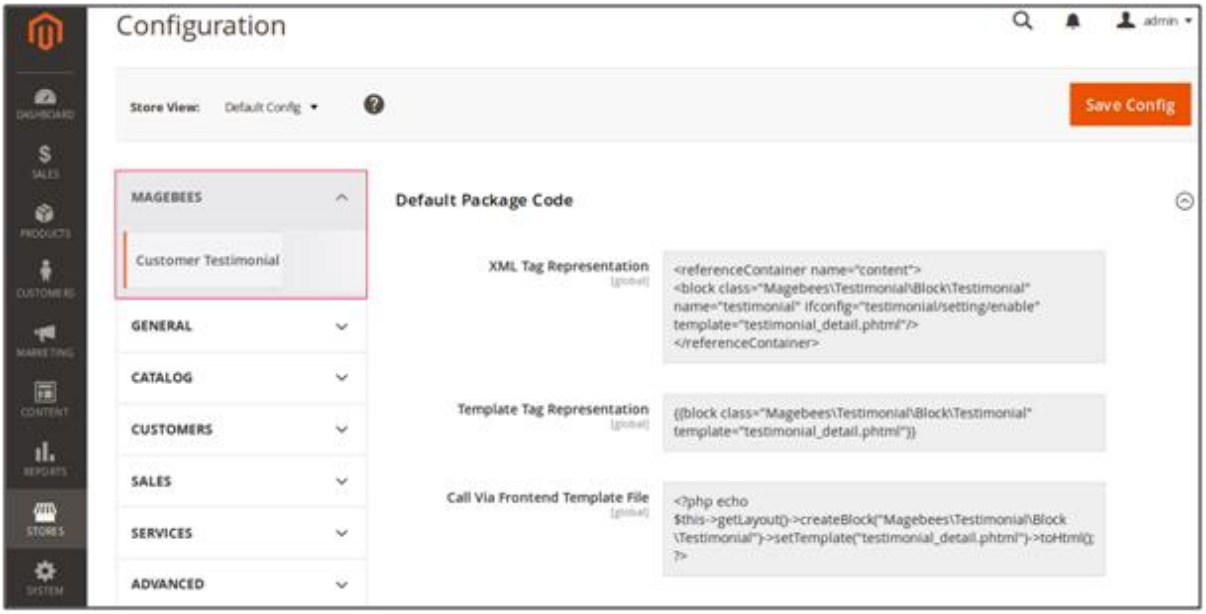
LAYOUT SETTINGS

Step-1

Go to admin → STORES → Configuration → MAGEBEES → Customer Testimonial.

Step-2

Click on **Default Package Code** Tab. You will get Following Screen.



⇨ **XML Code:** Suppose you want to use XML Tag auto generated code of customer testimonials, copy XML Tag and put it in your Theme XML layout Files **[app/design/frontend/<Your package>/<Your theme>/<Your Module>/layout/]**.

For example, we are putting XML Tag Block code in **cms_index_index.xml** file, so open

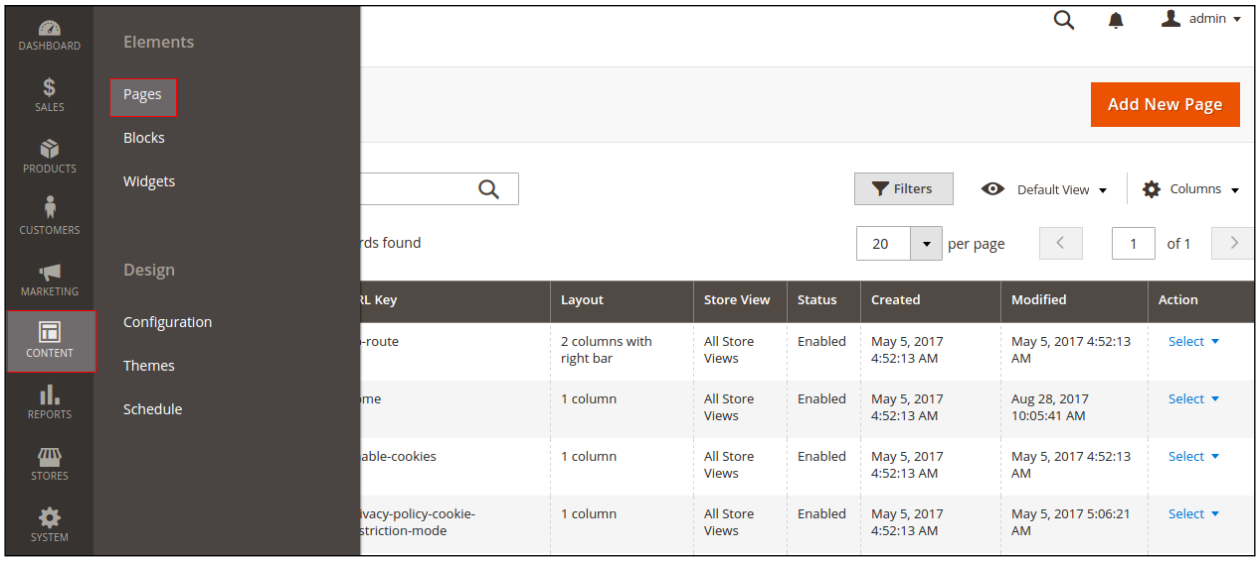
Your theme cms_index_index.xml file and put the following code under the content area.

Note: If you want to display testimonial in slider then you can use **testimonial.phtml** instead of **testimonial_detail.phtml**

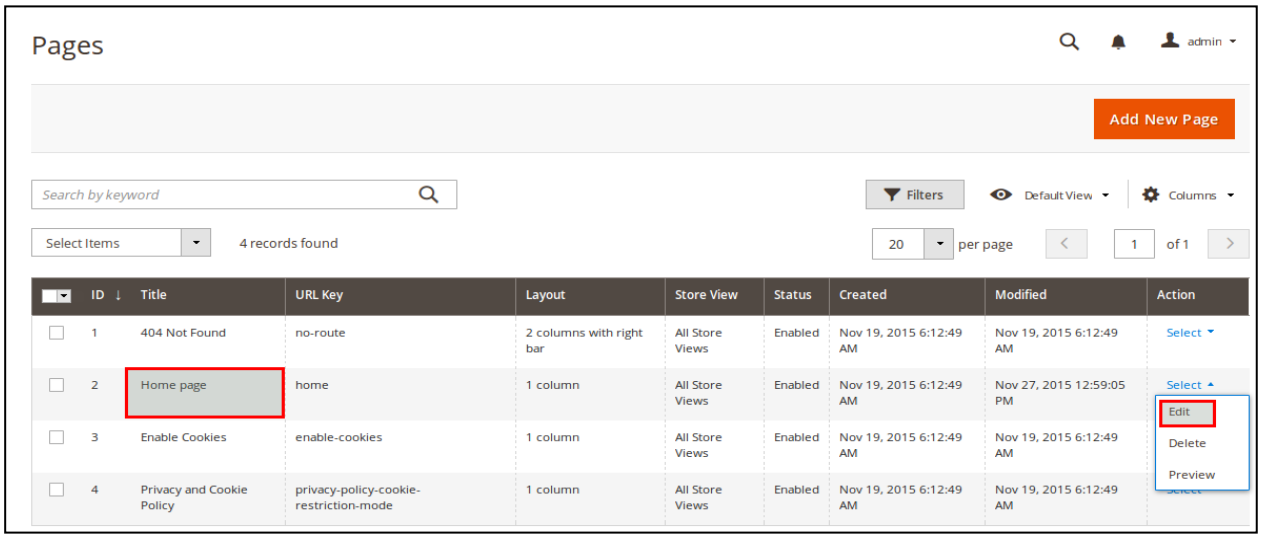
```
<body>
    <referenceContainer name="content">
        <block class="Magebees\Testimonial\Block\Testimonial" name="testimonial"
        ifconfig="testimonial/setting/enable" template="testimonial_detail.phtml"
        />
    </referenceContainer>
</body>
```

⇨ **Template Tag:** If you want to display customer testimonials in any CMS page.

Go to admin → CONTENT → Pages. It will display the list of CMS pages.



It will display following screen.click on “Select ” link for CMS page. Then click on “Edit”.



After click on “Edit” it displays the following screen. Open **Content** tab and put highlighted code in the editor, then save the page.

Note: If you want to display testimonial in slider then you can use **testimonial.phtml** instead of **testimonial_detail.phtml**

⇨ **Call via Frontend Template File:** If you want to display customer testimonials in your template file **[.phtml].** You need to just paste this at any part of your template files. For example, we put Template file code in list.phtml file.

Note: If you want to display testimonial in slider then you can use **testimonial.phtml** instead of **testimonial_detail.phtml**

```
<div class="products wrapper <?php /* @escapeNotVerified */ echo $viewMode; ?>
products-<?php /* @escapeNotVerified */ echo $viewMode; ?>">
    <?php $iterator = 1; ?>
    <ol class="products list items product-items">

    <?php echo $this->getLayout()->createBlock(
    "Magebees\Testimonial\Block\Testimonial")->setTemplate(
    "testimonial_detail.phtml")->toHtml(); ?>

        <?php /** @var $_product \Magento\Catalog\Model\Product */ ?>
        <?php foreach ($_productCollection as $_product): ?>
            <?php /* @escapeNotVerified */ echo($iterator++ == 1) ? '<li
            class="item product product-item">' : '</li><li class="item product
            product-item">' ?>
            <div class="product-item-info" data-container="product-grid">
                <?php
                $productImage = $block->getImage($_product, $image);
                if ($pos != null) {
                    $position = ' style="left:' . $productImage->getWidth() .
                    'px;'
                        . 'top:' . $productImage->getHeight() . 'px;"';
                }
                ?>
```

FAQS

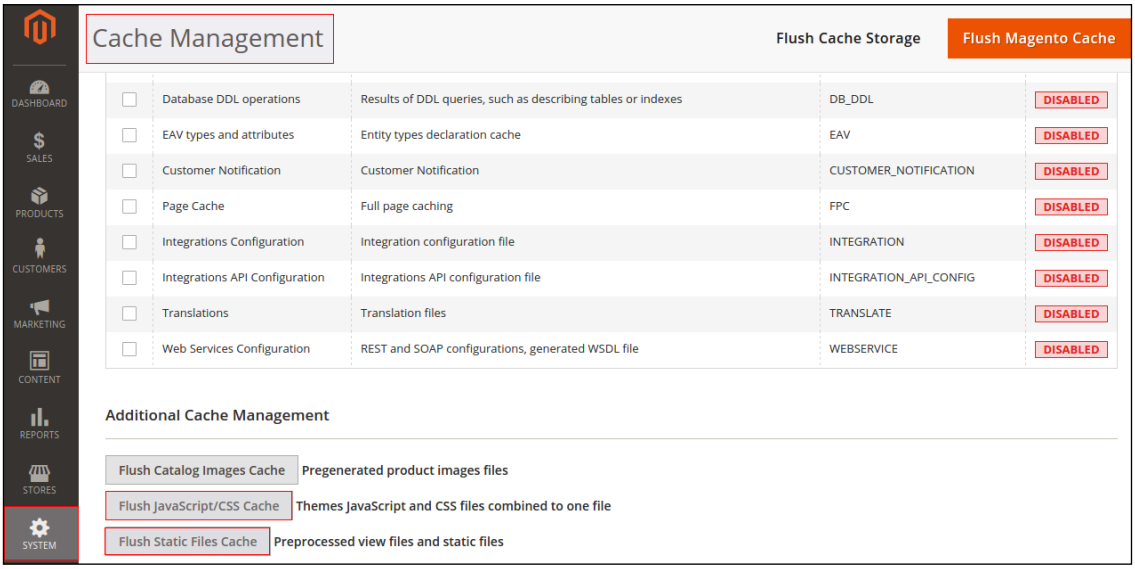
Q-1: I have tried to install customer testimonial extension using the terminal, but I am not able to install using the command line, what are steps for custom installation of customer testimonial extension??

NOTE: Please contact us for installing our module in your store.

Q-2: I am getting the error in console for cwstestimonial.js not found, How to solve this problem?

Solution 1:

1. Go to admin -> SYSTEM-> Cache Management .You can see the following screen.



2. Click on Flush JavaScript/Css Cache and Flush Static Files Cache Button

3. Refresh the page in Frontend.

Solution-2:

1) Open command prompt / terminal and change directory to your magento install directory.

2) Run following command :

```
rm -R pub/static/*
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

```
php bin/magento cache:clean
```

Thank you!
