INTRODUCTION

This Extension is generally used to display products list with countdown timer. You can also display products with slider using widget and pre defined code. This module is very easy to use. You have to select your timer date and time and products which are in the deal. Just copy and paste code anywhere for display deal products.

FEATURES

- ⇒ Enabled /Disabled the module from admin.
- ⇒ Create multiple deals and able to display multiple times in anywhere in your store.
- ⇒ Supported multiple store view and customer groups.
- ⇒ Able to set dynamic label and deal description.
- ⇒ Manage product listing with different option like enable slider, display add to buttons, pagination tools.
- ⇒ Option for choose timer format.
- ⇒ Create widgets for display specific deal in content or in sidebars.
- ⇒ Different templates for list, slider and sidebar.
- ⇒ Supported responsive layout.

Today's Deal Products By MageBees

CONFIGURATION SETTINGS

- Go to admin → STORES → Configuration → MAGEBEES → Today's Deal Products
You can enable or disable this module from configuration.

The screenshot shows a configuration window titled "General" with a close button in the top right corner. Inside the window, there is a setting labeled "Enable Today's Deal Products" with a dropdown menu currently set to "Yes". To the right of this setting is a link labeled "[STORE VIEW]".

MANAGE TODAY'S DEAL PRODUCTS

Add New Deal:

- Go to admin → MARKETING → Promotions → MageBees Today's Deal Products

	Today Deal ID	Title	Start DateTime	End DateTime	Status	Edit
<input type="checkbox"/>	2	Today's Deal Products Slider	Aug 15, 2017	Aug 31, 2017	ACTIVE	Edit
<input type="checkbox"/>	1	Today's Deal Products List	Aug 16, 2017	Aug 26, 2017	ACTIVE	Edit

- Click on **“Add New Deal”**. You will get the following screen.

Today's Deal Products By MageBees

General Tab:

The screenshot shows the 'Add Deal' form in the MageBees admin panel. The form is titled 'Add Deal' and has a search icon, a notification bell with '1', and a user profile 'admin'. Below the title bar are buttons for 'Back', 'Reset', 'Save and Continue Edit', and 'Save'. The form is divided into sections under 'TODAY'S DEAL INFORMATION', with 'General' selected. The 'General' section includes the following fields:

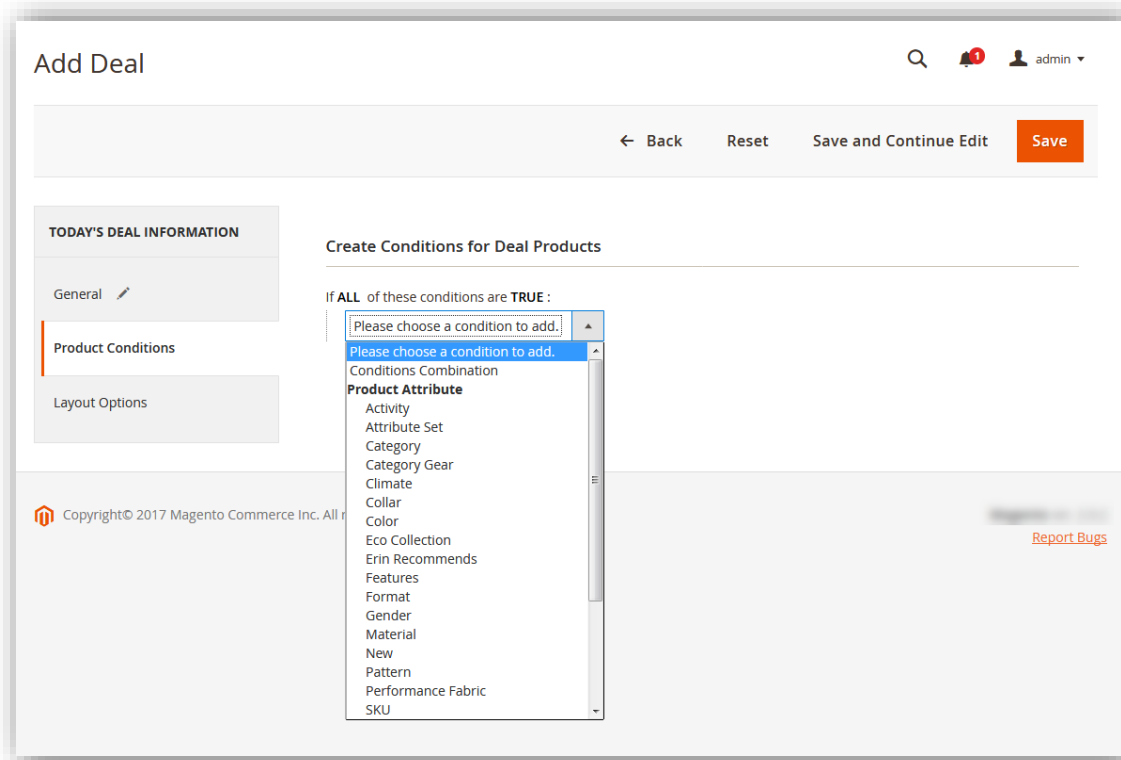

- Title ***: Text input field containing 'Today's Deal with Products Slider'.
- Description**: Text input field containing 'Here is the list of deal products with count down timer'.
- Status**: Dropdown menu set to 'Inactive'.
- Timer Format**: Dropdown menu set to '24 hours'.
- From Date ***: Date and time picker set to '08/16/2017 06:39:54'.
- To Date ***: Date and time picker set to '08/26/2017 06:39:54'.
- Customer Groups ***: Multi-select dropdown menu with options: 'NOT LOGGED IN', 'General', 'Wholesale', and 'Retailer'.
- Store View ***: Multi-select dropdown menu with options: 'All Store Views', 'Main Website', 'Main Website Store', and 'Default Store View'.

- **Title:** You can set title or name for your deal
- **Description:** Add description of the deal in short or short summary of deal. It is not mandatory.
- **Status:** Select status of your deal. (Active/Inactive)
- **Timer Format:** You can display timer by two types.
 - **Based on From and To Date:** Timer count is displayed between from and to date
 - **24 hours:** Timer count is reset in every 24 hours from “from date” till to date.
- **From Date:** Choose from date and time for when you want to start the deal.

Today's Deal Products By MageBees

- **To Date:** Choose to date and time for specifying expiry date and time of your deal.
- **Customer Groups:** You can choose your customer groups in which your deal displays.
- **Store View:** You can choose store view in which your deal will be displayed.
- **Priority:** If you want to display deal products using priority then you can use below shortcode to template file without using deal id.
- ```
<?php echo $this->getLayout()->createBlock('Magebees\TodayDealProducts\Block\DealTimerListingProducts')->setProduct($_product)->setTemplate('Magebees_TodayDealProducts::page_timer.phtml')->toHtml(); ?>
```

## Product Conditions:

- Under “**Create Conditions for Deal Products**” the statement has two bold links, Which when tapped, display the options for that part of the statement.
  - Tap the **ALL** link, and choose either “ALL” or “ANY”.
  - Tap the **TRUE** link, and choose either “TRUE” or “FALSE”.

You can create different conditions by changing the combination of these values.

- Tap the **Add** (  ) button at the beginning of the next line.
  - In the list under **Product Attribute**, choose the attribute that you want to use as the basis of the condition.
- To add another line to the statement, tap the **Add** (  ) button, and choose one of the following:
  - Conditions Combination
  - Product Attribute

Then, repeat the process until the condition is complete. If at any time you want to delete part of the statement, tap the **Delete** (  ) button at the end of the line.

## Layout Options:

The screenshot shows the 'Add Deal' configuration page. At the top, there is a search icon, a notification bell with a red dot, and a user profile icon labeled 'admin'. Below this is a navigation bar with buttons for 'Back', 'Reset', 'Save and Continue Edit', and a prominent orange 'Save' button. On the left, a sidebar titled 'TODAY'S DEAL INFORMATION' contains three tabs: 'General', 'Product Conditions', and 'Layout Options', with 'Layout Options' being the active tab. The main content area is titled 'Layout Options' and contains several settings:

- Display Product's Price:** A dropdown menu set to 'No'.
- Display Add to Cart:** A dropdown menu set to 'No'.
- Display Add to Compare:** A dropdown menu set to 'No'.
- Display Add to Wishlist:** A dropdown menu set to 'No'.
- Display Out of Stock:** A dropdown menu set to 'No'.
- Display Pager:** A dropdown menu set to 'No'.
- Set Number of Products per Page:** An input field with a placeholder value of 5. Below it, a note reads: 'Set value greater than 0. Default products per page is 5.'
- Set Total Number of Products for display:** An input field. Below it, a note reads: 'Set 0 or remain blank field for display all products.'
- Enable Slider:** A dropdown menu set to 'No'.
- Enable Auto Scroll:** A dropdown menu set to 'Yes'.
- Display Navigation Arrows:** A dropdown menu set to 'Yes'.

- **Display Product's Price:** Choose "Yes" for display price of the products in deal products list.
- **Display Add to Cart:** Choose "Yes" for display "Add to Cart" button in deal products list.
- **Display Add to Compare:** Choose "Yes" for display "Add to Compare" in deal products list.
- **Display Add to Wishlist:** Choose "Yes" for display "Add to Wishlist" in deal products list.
- **Display Out of Stock:** Choose "Yes" for display Out of Stock products in products list.
- **Set Total Number of Products for display:** Limit total number of products for display in deal products list. If you want to display all selected products then leave blank this field.

## Today's Deal Products By MageBees

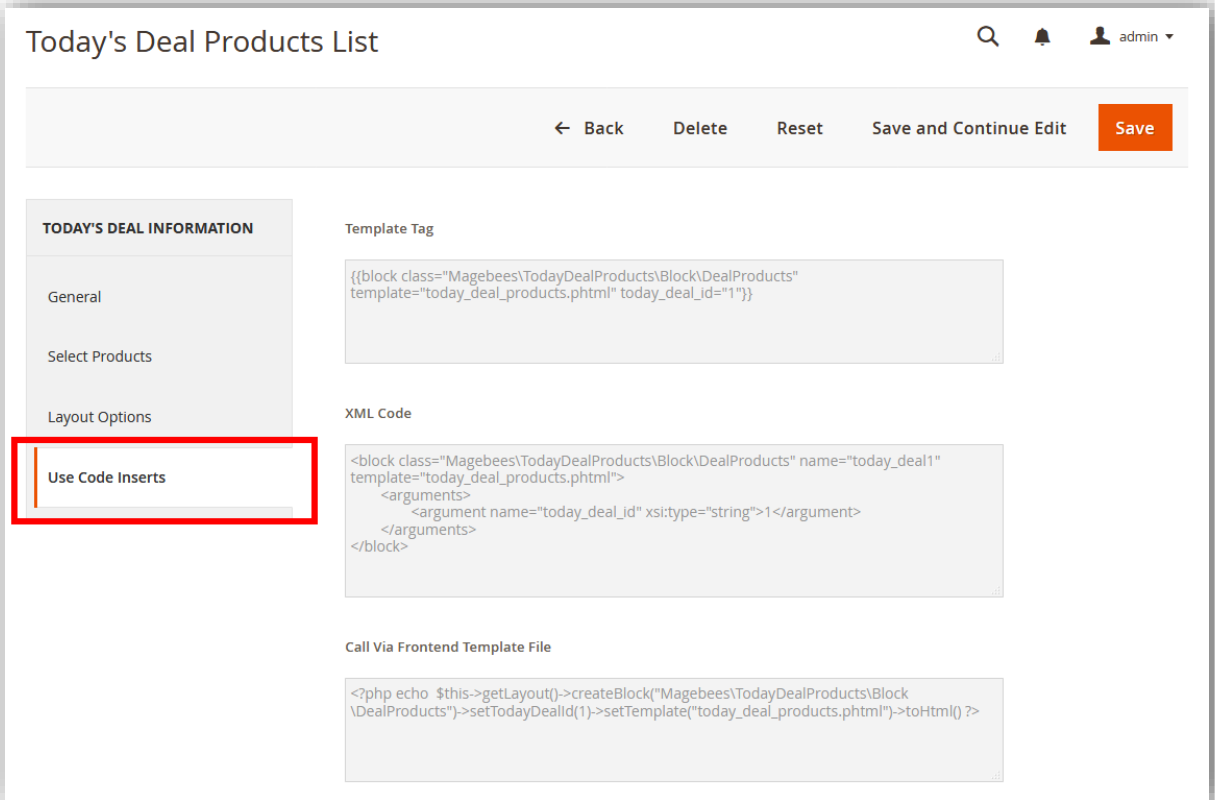

---

- **Display Pager:** Choose "Yes" for display pagination and its options.
- **Enable Slider:** Choose "Yes" for display deal products in slider and its options.

## HOW TO DISPLAY TODAY'S DEAL PRODUCTS LIST ON FRONTEND?

### Using Predefined Code:

- Go to admin → MAGEBEES → Today's Deal Products → Manage Today's Deal Products >> Edit any Deal.
- Find "Use Code Inserts" Tab.

The screenshot shows the 'Today's Deal Products List' configuration page in the MageBees admin interface. The page has a top navigation bar with a search icon, a notification bell, and a user profile 'admin'. Below the navigation bar are action buttons: 'Back', 'Delete', 'Reset', 'Save and Continue Edit', and a prominent orange 'Save' button. On the left, there is a sidebar menu titled 'TODAY'S DEAL INFORMATION' with options: 'General', 'Select Products', 'Layout Options', and 'Use Code Inserts'. The 'Use Code Inserts' option is highlighted with a red rectangular box. The main content area is divided into three sections:

- Template Tag:** A text area containing the code: 

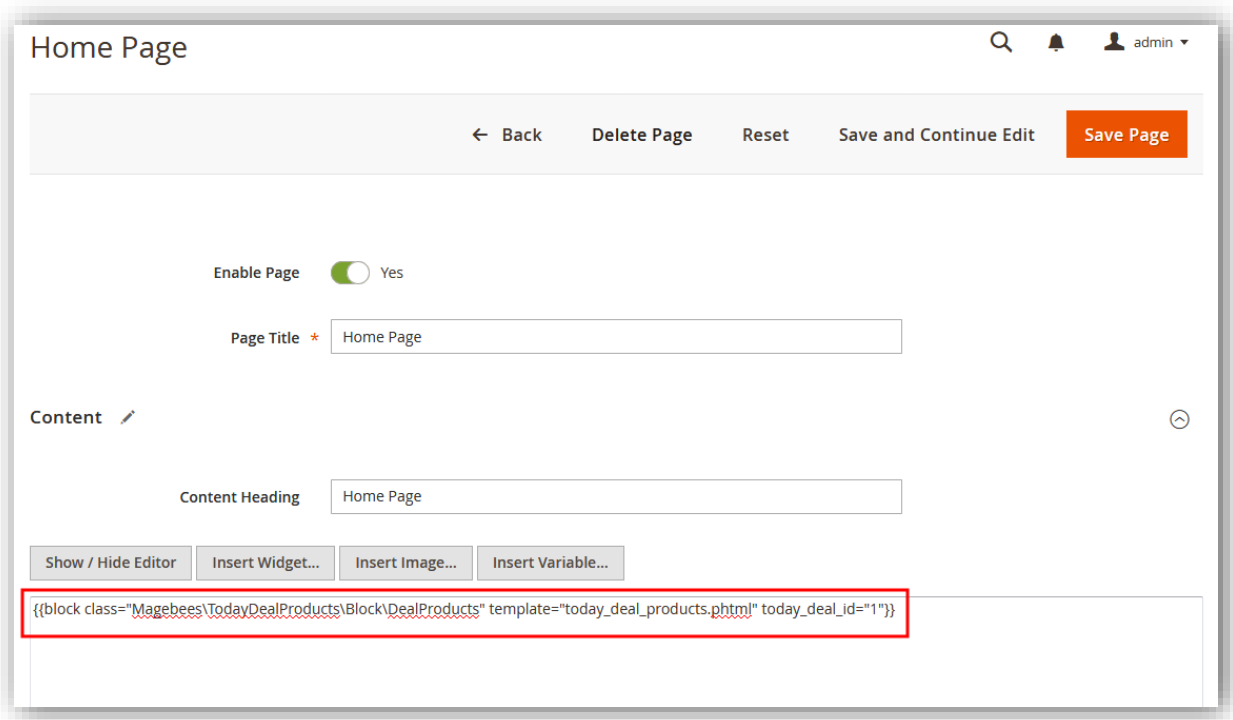

```
{{block class="Magebees\TodayDealProducts\Block\DealProducts" template="today_deal_products.phtml" today_deal_id="1"}}
```
- XML Code:** A text area containing the code: 

```
<block class="Magebees\TodayDealProducts\Block\DealProducts" name="today_deal1" template="today_deal_products.phtml">
 <arguments>
 <argument name="today_deal_id" xsi:type="string">1</argument>
 </arguments>
</block>
```
- Call Via Frontend Template File:** A text area containing the code: 

```
<?php echo $this->getLayout()->createBlock("Magebees\TodayDealProducts\Block\DealProducts")->setTodayDealid(1)->setTemplate("today_deal_products.phtml")->toHtml() ?>
```

**Template Tag:** If you want to put today's deal products in any CMS page, block at that time you can use this code. Once you put this code, it will show under that particular CMS Page.

# Today's Deal Products By MageBees

**XML Code:** Suppose you want to use XML Tag auto generated code of today's deal products, copy XML Tag auto generated code and put it in your Theme XML layout Files [`app/design/frontend/<Your package>/<Your theme>/<Your Module>/layout/`].

```
<?xml version="1.0"?>
<!--
/**
 * Copyright © 2013-2017 Magento, Inc. All rights reserved.
 * See COPYING.txt for license details.
 */
-->
<page xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xsi:noNamespaceSchemaLocation=
"urn:magento:framework:View/Layout/etc/page_configuration.xsd">
 <body>
 <referenceContainer name="content">
 <block class="Magento\Cms\Block\Page" name="cms_page"/>
 <block class="Magebees\TodayDealProducts\Block\DealProducts" name="today_deal1" template=
"today_deal_products.phtml">
 <arguments>
 <argument name="today_deal_id" xsi:type="string">1</argument>
 </arguments>
 </block>
 </referenceContainer>
 </body>
</page>
```

**Call via Frontend Template File:** If you want to set today's deal products in your template file [.phtml] you need to just paste this auto generated code at any part of your template files.

## Today's Deal Products By MageBees

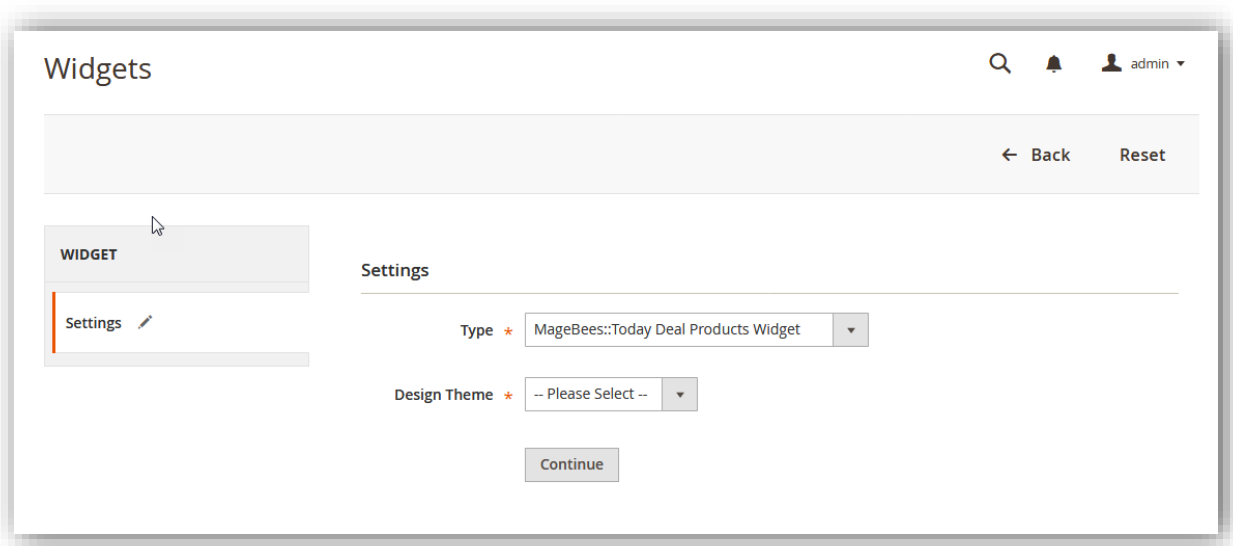

```
<?php
/**

 * See COPYING.txt for license details.
 */

// @codingStandardsIgnoreFile

?>
<?php /* @escapeNotVerified */ echo $pageData->getPageContent(); ?>
<?php echo $this->getLayout()->createBlock("Magebees\TodayDealProducts\Block\DealProducts")->
setTodayDealId(1)->setTemplate("today_deal_products.phtml")->toHtml() ?>
```

### Using Widget:

- Go to admin → CONTENT → Widgets
- Click on **"Add Widget"**. You will get the following screen.

- Select **"Magebees::Today Deal Products Widget"** from type dropdown. For **"Design Theme"** select **"Your Package/Your Theme"** and click on **"Continue"**.

# Today's Deal Products By MageBees

**WIDGET**

- Storefront Properties
- Widget Options

**Storefront Properties**

Type: MageBees::Today Deal Products Widget

Design Package/Theme: Magento Luma

Widget Title \*

Assign to Store Views \*

- All Store Views
- Main Website
- Main Website Store
- Default Store View

Sort Order

Sort Order of widget instances in the same container

**Layout Updates**

Add Layout Update

- Set Storefront Properties for widget like Widget Title, Assign to Store views, Sort Order.
- For the **“Display on”** select the pages, products or categories in which you want to display. Now select the **“Container”**. You can display this widget in main content area or in sidebars.

## Display on category or product page using priority in template:

```
<?php echo $this->getLayout()-
>createBlock('Magebees\TodayDealProducts\Block\DealTimerList
ingProducts')->setProduct($_product)-
>setTemplate('Magebees_TodayDealProducts::page_timer.phtml')
>->toHtml(); ?>
```

### FAQ

**Q-1:** I have Installed Today's Deal Products Extension. I got following error. "There has been an error processing your request". **"Please upgrade your database: Run bin/magento setup:upgrade"**.

- ⇒ Run **"php bin/magento setup:upgrade"** command to your terminal or command prompt. Please see installation steps for that.

**Q-2:** I am getting error in console for not found js, How to solve this problem?

- ⇒ Go to admin >> SYSTEM >> Cache Management.
- ⇒ Click on Flush JavaScript/Css Cache and Flush Static Files Cache Button
- ⇒ Refresh the page in Frontend.

**Q-3:** Deal is not displaying as per my current system date & time.

- ⇒ This happens due to different time-zone in your magento store. If you want to set same date and time then please set same time-zone as original website having.
- ⇒ You can set time-zone from >> admin >> STORES >> CONFIGURATION >> GENERAL >> GENERAL TAB >> Locale Options.

# Thank you!
